7th Annual Symposium of East Asian Association of Insolvency and Restructuring

Welcome Address

I am very pleased to invite you to the 7th Annual Symposium of East Asian Association of Insolvency and Restructuring (EAAIR).

Since the 1st symposium in Seoul in 2009, the annual symposium of EAAIR has been the platform of information exchange and discourse on insolvency and restructuring. More than 200 leading specialists of Japan, China and Korea has attended the symposium each year and shared their experience and views on insolvency and restructuring issues.

Low level of economic growth, employment and income have become a vivid trend of economy in these days. This so called new normal makes insolvency and restructuring daily phenomena. The program of this year reflects practical and theoretical issues in the era of the new normal.

The symposium starts with annual review, which will show recent changes and trends of insolvency and restructuring practice in Japan, China and Korea. The most significant case of each country during the last year will be reported after the annual review. Ipso facto clause will be discussed from different angles of three countries based on a hypothetical case. Presentation will be made on a specific issue to a country which was selected by other two countries; rescuing small and micro-sized enterprises in Japan, Insolvency case of foreign enterprises in China and post-CRPA legislation in Korea. The final topic is the insolvency of financial institutions.

Most outstanding specialists in the region participate in the Symposium as speakers and discussants. And also floor is open wide for questions and answers. I believe participants can acquire valuable information and insights by sharing experience and ideas through this symposium.

I look forward to meeting you at the 7th Annual Symposium of EAAIR which is held at Ewha Womans University, Seoul, Korea on September 12th and 13th, 2015.

With best regards,

Prof. OH Soogeun
